PROFESSIONAL SUMMARY

Computer Science Engineering student with a CGPA of 8.78, passionate about Artificial Intelligence, Machine Learning, Computer Vision, and Full-Stack Development. Experienced in developing AI-driven applications and scalable web solutions using Python, React.js, FastAPI, Flask, Node.js, and MongoDB. Strong foundation in software engineering with hands-on experience in Computer Vision, OCR, Retrieval-Augmented Generation (RAG), and REST API development.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering) 2023 – 2027

Shri Madhwa Vadiraja Institute of Technology and Management (VTU), Karnataka
CGPA: 8.78/10

Pre-University (PUC) 2021 – 2023

Dr. N. S. A. M. PU College, Nitte, Karnataka | **Percentage:** 86.5%

SSLC 2020 – 2021

Don Bosco School, Mulladka, Karnataka | **Percentage:** 80%

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Vite

Backend: Node.js, Express.js, FastAPI, Flask, REST APIs

AI/ML: Machine Learning, Deep Learning, YOLO, OpenCV, OCR, TensorFlow, Scikit-learn, NumPy, Pandas, Matplotlib, Sentence Transformers, RAG

Databases: MongoDB Atlas, MongoDB, MySQL, SQLite, FAISS

Tools: Git, GitHub, VS Code, Postman, Google Colab, Jupyter Notebook, Vercel, Render

ACADEMIC PROJECTS

AI-Based Smart Traffic Congestion Optimization System (Major Project)

- Developing an AI-based traffic management system for adaptive signal optimization.
- Implementing YOLO and OpenCV for vehicle detection and traffic density analysis.
- Building an interactive dashboard to visualize traffic flow and signal status.

AI-Powered Accident Alert & Emergency Response System (NAIN 2.0)

- Developed a full-stack emergency response platform for accident reporting and management.
- Integrated OCR-based vehicle number recognition and emergency notification modules.
- Selected under the NAIN 2.0 Innovation Program.

ExamForge AI – RAG Question Paper Generator

- Built an AI-powered question paper generation system using RAG.

- Implemented semantic search with FAISS and OCR for document processing.
- Developed REST APIs using FastAPI.

Police Crime Record Management System

- Developed a secure web application for police authentication and criminal record management.
- Implemented REST APIs with secure authentication and MongoDB integration.

SmartCanteen

- Developed a responsive web application for digital canteen management.
- Designed reusable React components and user-friendly interfaces.

ACHIEVEMENTS & LEADERSHIP

- Secured ₹3.5 lakh funding under the NAIN 2.0 Innovation Program for the Accident Alert & Emergency Response System.
- NSS Volunteer (2023–2026).
- Participated in Hackotsava 2025 and MatrixFusion 4.0.
- Participated in Git & GitHub workshops.

CERTIFICATIONS

- IBM SkillsBuild – AI Literacy
- Infosys Springboard – Network Security Fundamentals
- Hands-on Git & GitHub Workshop
- HTML5: From Basic to Advanced (Udemy)
- JavaScript for Beginners (Udemy)
- Data Science & Generative AI Certification Program
